Welcome to the World of Extrusion Dies & Moulds

## Shubham Engineering Works

Manufacturer & Exporter of Extrusion Dies

All Kinds of: Plastic Extrusion Profile Dies

Specialist in: PVC Door Panels & Industrial Extrusion Profile Dies

We have been manufacturing Plastic Profiles Dies in India since 1997. We specialize in making All type of Extrusion Profile Dies as per the customer requirement. We have our own tool room to make dies & jigs as per your requirements.

All tooling is designed, engineered and tested under the watchful eyes of our experienced technical team; we are using the latest CAD facilities For Die Designing.

We work closely with both our production teams and customers to ensure that any modifications are quickly identified and implemented to provide an accurate, quality extrusion Dies. We are able to assist our customers from initial design to final production offering advice on any modifications where necessary. Having the skills in house means we are able to respond rapidly to customer requests and to provide a timely and efficient service. We have the latest technology to ensure tooling is both accurate and appropriate for the job at hand.

We also can manufacture profiles Dies as per your design & requirements to meet your exacting standards, We also have facilities to Making Dies For flexible & co-extruded profiles. We also can help you to design your custom profiles to enable you to get the maximum benefit of Extrusion.

High tensile profile dies finds application in various sectors' such as Automobile, Air Conditioning & Refrigeration, Advertising, Electrical, Civil , Furniture & Fabrication Industries. These profile Dies are made using quality grade material that ensures long lasting usages. These profile dies are easy to install and comes in different specifications to cater to specific requirement.

***We have various industrial users as our clients due to the following reasons:***

**Quality & Consistency:** Quality and consistency are both top priorities at Shubham Engineering Works.

We go to great lengths for our customers to ensure that every part not only meets their requirements but also exceeds their expectations. Technical inspectors assume primary responsibility for quality assurance by checking dimensions, during manufacturing of Die.

### **KEY FEATURES OF PROFILE DIES**

Made using quality grade material, Long Lasting usage, mirror finish with hard chrome plating, High tensile strength, Easy to Handel

**Accuracy:** Our Dies are as per the dimension of the party & special care is taken to ensure that the Die fall in the parameter specified by the client.

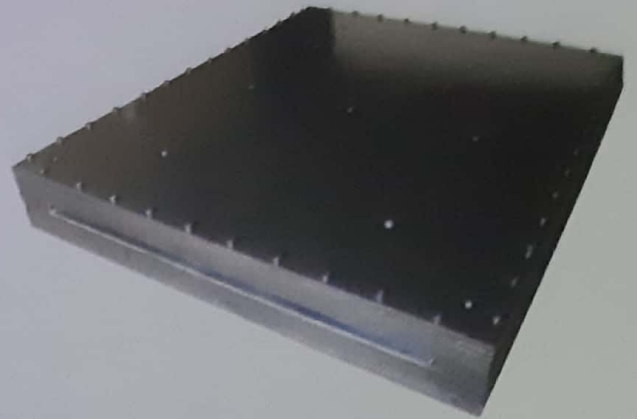

**Delivery:** Another important area where we excel is on time delivery. & ensure that the clients have a trouble free experience.
